THINKVANTAGE TECHNOLOGIES

- **Rescue and Recovery™** is a one button recovery and restore solution that includes a set of self recovery tools to help you diagnose, get help and recover from system crashes quickly, even if the primary operating system will not boot.
- With **Access Connection**, users can seamlessly switch network, in the office or on the move, wired or wireless.
- **Secure Data Disposal** shreds the data not the hard disk. Confidential information on a hard disk is erased quickly and simply.
- **Active Protection System** features an integrated motion sensor that can detect sudden changes in motion and temporarily stop the hard drive to protect your valuable data from crashes due to everyday notebook accidents.
- With **ThinkPad's Spill Resistant™ Keyboard**, a simple accident with a cup of coffee could spell disaster for an ordinary notebook. The keyboard on the ThinkPad is designed to help prevent liquid spills from damaging the motherboard as it is sealed tight and sits on a tray with dual drainage holes. ThinkVantage Technologies for ThinkPad Models only. \*\*Today, ThinkPad® is spill-resistant up to 60cc. But the Lenovo team that designed the keyboard tray and drain system isn't satisfied. They're working on a completely waterproof ThinkPad. Until it's ready, don't try yours in the bath.

**Singapore Post Drop Off Points – Applicable to ThinkPad only**

Together with Singapore Post, Lenovo is able to provide another convenient way for you to send your faulty Notebook to the IBM Service Centre for repair. This arrangement allows you to deposit your faulty notebook at any of the 60 over SingPost Offices island-wide, after which SingPost will arrange to deliver the Notebook to the IBM Service Centre for evaluation & repair. Once the Notebook is repaired, it will be returned to same SingPost Office for you to pick it up. This service is of no charge at all.
